The Mekong River Basin

Case Studies in Biodiversity and Ecologically Sustainable Development Click for fax order form.

by David Bowden, foreword by Philip Hirsch

Australian Association for Environmental Education 1998

This publication was written for senior secondary school teachers and students, and more generally for all those interested in the changing ecosystems and changing ways of life of the 60 million people living in the Mekong River Basin. Well illustrated with photographs, maps and diagrams, the book provides accessible case studies of development and its impacts on environments and livelihoods.

A$15.00+postage, available from AMRC.
